

BioEntrepreneurship Summit – create the future of medicine

Virtual Edition - October 2021

March, 2021

- inspiring key notes, panels on entrepreneurial topics and future trends
- pre-seed and start-up showcases & reversed pitches by investors
- interactive workshop formats and hands-on lectures on bioentrepreneurship
- 1:1 meetings, roulette and open networking
- start-up pitch competition & m⁴ award ceremony

The BioEntrepreneurship Summit is an inspirational meetup of all relevant stakeholders of the bioentrepreneurial and health tech ecosystem: pre-seed teams, start-ups, experienced life science entrepreneurs, investors and industry leaders as well as students and scientists (300+ participants)

BioEntrepreneurship Summit 2019 - Feedback from attendees:

„I found the conference to be very relevant, and extremely informative for current and aspiring biotech entrepreneurs. The information delivered was directly applicable, and the conference format allowed for a perfectly balanced mix of presentations, interactive Q & A, networking, and socializing. Additionally, there was great mix of attendees - VCs/investors, accelerators, industry, and other interesting, dynamic innovators. I was honored to participate in this important entrepreneurial ecosystem-building activity. Thank you very much for the opportunity.“

Marc Filerman, German Accelerator Life Sciences

„The BioEntrepreneurship Summit had a successful mixture of top-class speakers, entrepreneurs, experts and investors. I got a lot of new inspirations, had an intensive exchange with other participants and was able to make numerous new contacts.“

Beatrix Förster, DoDerm

„The BioEntrepreneurship Summit and the m4 Award are very valuable events for our community. Fostering entrepreneurship and celebrating the life science founders in this way is truly unique in Germany.“

Hermann Josef Kaiser, Evotec

“The conference was very helpful, valuable and well organized. I would like to see more of these events.”

Kei Müller, Ebenbuild

„It was a real pleasure to discuss business models on the panel for me as it is very hot topic for most of the digital medicine companies. It of course applies to mental health where Mindpax is operating.“

Pavel Nevicky, Mindpax
